EXECUTIVE SUMMARY

Enthusiastic Full-Stack Developer with hands-on experience in MERN stack development and a strong understanding of software engineering fundamentals. Proficient in developing responsive web applications, RESTful APIs, and database-driven solutions. Possesses strong analytical and problem-solving skills, with a passion for learning new technologies and contributing to innovative software projects.

EDUCATION

EGSP Engineering College	09/2023 – 05/2027
B.Tech (CSBS) CGPA: 7.9	Nagapattinam
Thanthai Periyar GOVT. HR SEC School	07/2021 – 04/2023
HSC 79%	Karaikal
Karaikal Ammaiyar HR. SEC School	06/2020 – 04/2021
SSLC	Karaikal

SKILLS

Technical Skills — MongoDB, Express.js, React, Node.js, HTML, CSS, JavaScript, Bootstrap, REST API Integration, Authentication, RBAC, Mongoose, Responsive Web Design.

Soft Skills — Adaptability, Communication, Time Management, Quick Learner, Problem Solving.

TOOLS

VS Code, Git, GitHub, Postman, MongoDB Compass, Vercel, Render, AWS EC2, GitHub Actions.

CERTIFICATES

TCS iON — Young Professional Soft Skills

NPTEL — Completed Cloud Computing with 58%

NPTEL — Human Computer Interaction (In English) with 98%

NPTEL — Organizational Behaviour: Individual Dynamics in Organization with 81%

INTERNSHIP

CodeAlpha	Front-end Developer
------------------	----------------------------

Completed a virtual internship in Frontend Development at CodeAlpha.

Cognifyz Technologies	Full Stack Developer
------------------------------	-----------------------------

Currently completing a Full Stack Development Internship at Cognifyz Technologies, building scalable web applications.

PROJECTS

Portfolio

Developed a fully responsive personal portfolio using React (Vite) with a modern dark UI and glassmorphism design. Implemented smooth animations using Framer Motion and structured navigation with React Router DOM. Integrated REST APIs using Axios with a Node.js and Express backend, connected to MongoDB via Mongoose. Deployed on Vercel with optimized performance and scalability.

Furniture Store Website

Designed and developed a MERN Stack-based furniture website to showcase various furniture products and categories. Created a modern user interface using Bootstrap and glassmorphism design, ensuring a responsive and visually appealing layout. Implemented features for product browsing and structured product display, improving user navigation and overall experience.

VendorBridge ERP System

Built a full-stack Procurement ERP with vendor management, RFQ engine, quotation comparison, Purchase Orders, and Invoice tracking with 4-role RBAC (Admin, Manager, Procurement Officer, Vendor). Integrated Socket.io for real-time notifications, Gmail OAuth2 for transactional emails, and Cloudinary for file uploads. Deployed on Vercel (frontend) + Render (backend) with JWT authentication and protected routes.

StockZen – Inventory Management System

Built a full-stack inventory management system using React (Vite) with a modern dark UI and glassmorphism design. Implemented dynamic dashboards, real-time stock updates, and smooth UI interactions using Framer Motion. Developed RESTful APIs with Node.js and Express.js, integrated MongoDB via Mongoose. Deployed on Vercel with optimized performance.

Booking Platform

Built a responsive full-stack booking platform using the MERN stack and Vite. Implemented OTP-based authentication for secure user registration and login. Developed Role-Based Access Control (RBAC) for Participants, Organisers, and Admins. Focused on scalable architecture, secure routing, and seamless user experience.

EV Charging Station Booking Platform

Built a full-stack MERN application for discovering and booking EV charging slots across Tamil Nadu. Implemented OTP authentication, profile management with Cloudinary uploads, and a personal booking dashboard. Added station search, availability filters, and Google Maps integration with custom markers and turn-by-turn navigation. Designed a booking engine with 24 hourly slots, instant cancellation, and double-booking prevention using MongoDB unique indexes. Integrated Socket.io for real-time slot availability updates.

DECLARATION

The information in this resume is complete and correct to the best of my ability. I am open to verification of any claims made above.
